

RESOLUTION - 92.5

WHEREAS, certain areas of Torrance County are subject to periodic flooding, causing serious damages to properties within these areas; and

WHEREAS, relief is available in the form of Federally subsidized flood insurance as authorized by the National Flood Insurance Act of 1968; and

WHEREAS, it is the intent of this Council to require the recognition and evaluation of flood hazards in all official actions relating to land use in areas having these hazards; and

WHEREAS, this body has the legal authority to adopt land use and control measures to reduce future flood losses pursuant to Section 3-18-7 NMSA

NOW, THEREFORE, BE IT RESOLVED, that this Council hereby:

1. Assures the Federal Emergency Management Agency that it will enact as necessary, and maintain in force in these areas having flood hazards, adequate land use and control measures with effective enforcement provisions consistent with the criteria set forth in Section 60 of the National Flood Insurance Program Regulations; and
2. Vests Diego Castillo, EMC with the responsibility, authority and means to:
 - (a) Assist the Administrator, at his request, in the delineation of the limits of the area having special flood hazards.
 - (b) Provide such information as the Administrator may request concerning the present uses and occupancy of the floodplain.
 - (c) Cooperate with Federal, State, and local agencies and private firms which undertake to study, survey, map and identify floodplain areas, and cooperate with neighboring communities with respect to management and adjoining floodplain areas in order to prevent aggravation of existing hazards.
 - (d) Submit an annual report to the Administrator on the progress made during the past year within the community in the development and implementation of floodplain management measures.
 - (e) Upon occurrence, notify the Administrator in writing whenever the boundaries of the community have been modified by annexation or the community has otherwise assumed or no longer has authority to adopt and enforce floodplain management regulations for a particular area. In order that all Flood Hazard Boundary Maps and Flood Insurance Rate Maps accurately represent the community's boundaries, include within such notification a copy of a map of the community suitable for reproduction, clearly delineating the new corporate limits or new area for which the community has assumed or relinquished floodplain management regulatory authority.
