Re: Mileage for County Designated Roadways for Maintenance

Dear Mr. Young,

Enclosed in pursuant to the 1990 Legislature amended Section 66-6-23 NMSA 1978 (being Laws 1987, Chapter 347 Section 22 Resolution # ~~2012-12~~ for all Torrance County designated roadways for maintenance with an estimated mileage for gravel roads at 857.862 miles and chip seal roads at 78.685 miles. Estimated total of 936.547 miles.

Enclosed also is a data disk and hard copy of the updated list of each county designated roadway for maintenance listed by road name and or number (in alpha-numeric order), route description with the beginning and ending termini, total length of each roadway, surface type, an estimated total mileage for the entire submittal, and a county road map, all in accordance with the provisions set forth by the Board of the County Commission.

The Road Department as of January 1, 2004 has begun their own Global Positioning System (GPS) on county maintained roadways. Their goal is to have this project completed in the near future. The Global Positioning System (GPS) records done by the Rural Addressing Department is for the 911 systems and does not always provide accurate and or up to date records on county designated maintained roadways.

The County designated roadways for maintenance are indicated in red on the enclosed (1997) county road map. This is the only road map the Road Department has at this time. Any changes that have occurred on this map are on the data disk and or hard copy enclosed.

If any further documentation is necessary to allow us to comply, please feel free to call contact person Trisha Chavez at (505) 246-4765 in the Torrance County Road Department Office.

Sincerely,

Venessa Chavez-Gutierrez
Commission Chair
