

**TORRANCE COUNTY, NEW MEXICO
RESOLUTION NO. 2017-022**

WHEREAS, the Bureau of Land Management (BLM) issued a Record of Decision in January 2015 on the SunZia Southwest Transmission Project (SunZia) to construct two high voltage 500 Kv transmission lines which will provide new electric transmission capacity for electrical energy resources, particularly solar and wind renewable energy resources, that can be developed in Torrance County and other counties in New Mexico; and,

WHEREAS, Torrance County and other counties in New Mexico have abundant solar and wind energy resources that could be developed for western power markets if necessary electric transmission capacity like that proposed by SunZia became available; and,

WHEREAS, New Mexico's best undeveloped solar and wind energy resources are located primarily in southern and central counties in New Mexico where available transmission capacity is limited-to-nonexistent: and,

WHEREAS, Torrance County has followed the environmental studies conducted by the BLM on SunZia since 2010, and find no negative impacts to Torrance County with final route of the project as set forth in the Record of Decision; and,

WHEREAS, SunZia obtained its construction and operating permit from the State of Arizona in February 2016 and will soon apply for a Location Control Permit in New Mexico with the Public Regulation Commission (PRC); and,

WHEREAS, statements from local governing bodies such as the Torrance County Commission are important to the consideration and deliberations undertaken by the PRC in approving and issuing the Location Control Permit.

NOW THEREFORE BE IT RESOLVED that the Torrance County Commission fully supports the construction and operation of the SunZia Southwest Transmission Project to provide capacity for local renewable energy projects as well as those in throughout New Mexico that will be able to access SunZia's transmission facilities within the six counties it traverses, as well as from other counties in the stat over the existing interconnected electric power grid; and,

BE IT FURTHER RESOLVED that the Torrance County Commission urges the New Mexico Public Regulation Commission to expedite and issue the Location Control Permit for the SunZia Southwest Transmission Project following receipt and review of the permit application by SunZia.

PASSED, APPROVED AND ADOPTED THIS 10 day of May, 2017.
